The information, as provided, is for informational purposes only and should not be interpreted as complete, nor should it be considered legally binding. Coordination with both your state and the destination state plant regulatory agency listed above may be necessary to stay up-to-date on revised requirements.

ADVANCE NOTIFICATION OF *P. RAMORUM* – HOST NURSERY STOCK SHIPMENTS TO MICHIGAN

Any interstate shipping nursery located in the current quarantined counties moving any species of the genera *Camellia*, *Kalmia*, *Pieris*, *Rhododendron* (including Azalea), and *Viburnum* (defined under 7 CFR 301.92-2 (d) proven host taxa) interstate to non-regulated areas must provide advance notification in writing.

Advance notification of shipments to destinations in Michigan can be done using any of the following methods:

- On-line notification system: <https://notify.ceris.purdue.edu>. When the notification is submitted through this secure system, an email message is sent to the receiving state regulatory office(s). To get set up to use the Notify system, contact [Susan Schechter](#), Notify Coordinator (765) 494-9853.
- Email to Joshua Grant at GrantJ5@michigan.gov
- Fax to the Michigan Department of Agriculture and Rural Development - Attention: Nursery and Export Program at (517) 335-4540.

NURSERY STOCK DEFINITION

Nursery stock means all botanically classified hardy perennial or biennial trees, shrubs, vines, and plants, either domesticated or wild, cuttings, grafts, scions, buds, bulbs, rhizomes, or roots thereof, fruit pits; also such plants and plant parts for, or capable of, propagation, except field, vegetable and flower seeds, corms and tubers.

GENERAL SHIPPING REQUIREMENTS

Any nursery stock shipped into Michigan must bear a statement or a tag or other device showing the names and addresses of the consignor or shipper, and the consignee or person to whom shipped, the general nature of the contents, as well as labels upon each variety as to the name and grade as approved by AmericanHort. Such stock shall be in live and vigorous condition and of the grade specified, together with a certificate of inspection of the proper official of the state, territory, or country from which it was brought or shipped. Any nursery stock sold or given away in this state shall bear an exact copy of the person's valid certificate of inspection.

Any non-resident nurseryman, grower or dealer who solicits or takes orders for or sells nursery stock in this state through resident or non-resident agents shall obtain a license.

Licensing requirements may be waived if the non-resident nurseryman, grower or dealer is licensed in his or her state and the resident state of the nurseryman or dealer has entered into a reciprocal agreement with this state to exempt Michigan nurserymen, growers or dealers from licensing requirements in their state.

PROHIBITED & RESTRICTED PLANTS/NOXIOUS WEEDS

A. Prohibited Plant Species (Natural Resources and Environmental Protection Act Part 413 (Act 451 of 1994, as amended))

Any of the following plants, fragments, seeds or a hybrid or genetically engineered variant thereof:

<i>Cabomba caroliniana</i>	fanwort
<i>Cylindrospermopsis raciborskii</i>	cylindro
<i>Egeria densa</i>	Brazilian elodea
<i>Fallopia japonica</i>	Japanese knotweed
<i>Heracleum mantegazzianum</i>	giant hogweed

<i>Hydrilla verticillata</i>	hydrilla
<i>Hydrocharis morsus-ranae</i>	European frogbit
<i>Lagarosiphon major</i>	African oxygen weed
<i>Myriophyllum aquaticum</i>	parrot's feather
<i>Nitellopsis obtusa</i>	starry stonewort
<i>Nymphoides peltata</i>	yellow floating heart
<i>Salvinia molesta, auriculata, biloba, or herzogii</i>	giant salvinia
<i>Stratiotes aloides</i>	water soldier
<i>Trapa natans</i>	water chestnut

B. Restricted Plant Species (Natural Resources and Environmental Protection Act Part 413 (Act 451 of 1994, as amended))

Any of the following plants, fragments, seeds or a hybrid or genetically engineered variant thereof:

<i>Butomus umbellatus</i>	flowering rush
<i>Elaeagnus umbellata</i>	autumn olive
<i>Lythrum salicaria</i>	purple loosestrife
<i>Myriophyllum spicatum</i>	Eurasian watermilfoil
<i>Phragmites australis</i>	Phragmites or common reed
<i>Potamogeton crispus</i>	curly leaf pondweed

C. Noxious Weeds (Michigan Seed Law (Act 329 of 1965) and Regulation 715 (Under Act 329) Seed Law Implementation)

1. **Prohibited noxious weeds** - seeds of these species are prohibited as contaminants in seed offered for sale

<i>Agropyron repens = Elytrigia repens</i>	quackgrass
<i>Cardaria draba</i>	whitetop = hoary cress = perennial peppergrass
<i>Carduus acanthoides</i>	plumeless thistle
<i>Carduus nutans</i>	musk thistle
<i>Centaurea maculosa</i>	spotted knapweed
<i>Centaurea picris</i>	Russian knapweed
<i>Cirsium arvense</i>	Canada thistle
<i>Cirsium vulgare</i>	bull thistle
<i>Convolvulus arvensis</i>	field bindweed
<i>Convolvulus sepium</i>	hedge bindweed
<i>Cuscuta spp.</i>	dodder
<i>Cyperus esculentus</i> , both seed and tubers.....	yellow nutsedge, chufa
<i>Euphorbia esula</i>	leafy spurge
<i>Ipomea species</i>	morning glory
<i>Nasella trichoma</i>	serrated tussock
<i>Solanum carolinense</i>	horsenettle
<i>Sonchus arvensis</i>	perennial sowthistle

MI - 4 of 14

Sorghum halapense, including *Sorghum almum* and seed which cannot be distinguished from johnsongrass.....johnsongrass
Tribulus terrestrispuncturevine

2. Restricted noxious weed seeds - generally the limit is one seed per 2000 of agricultural seed offered for sale

Abutilon theophrasti.....velvetleaf
Allium canadense wild onion
Allium vineale wild garlic
Avena fatuawild oat
Barbarea vulgarisyellow rocket
Berteroa incana hoary Alyssum
Brassica juncea..... Indian mustard
Brassica nigra..... black mustard
Datura stramonium..... jimsonweed
Daucus carota..... wild carrot
Plantago lanceolatabuckhorn plantain
Raphanus raphanistrum.....wild radish
Rumex crispuscurled dock
Setaria faberii..... giant foxtail
Sinapis arvensis charlock
Solanum species: including all of the following species and any other species with indistinguishable seed: nightshade complex
Solanum dulcamara bitter nightshade
Solanum eleagnifolium..... silver leaf nightshade
Solanum nigrumblack nightshade
Solanum ptycanthum..... eastern black nightshade
Solanum sarrachoides..... hairy nightshade
~~*Thlaspis arvensis*~~ **Deregulated as of December 2015** pennycress = fanweed
Xanthium strumariumcocklebur

PROHIBITED & RESTRICTED MOLLUSKS

A. Prohibited Mollusk Species (Natural Resources and Environmental Protection Act Part 413 (Act 451 of 1994, as amended))

Any of the following mollusk species or a hybrid or genetically engineered variant thereof:

Achatina fulica..... Giant African snail
Candidula intersecta..... wrinkled dune snail
Hygromia cinctella..... girdled snail
Helix aspersa brown garden snail
Monacha cartusiana Carthusian snail
Xerolenta obvia..... heath snail

B. Restricted Mollusk Species (Natural Resources and Environmental Protection Act Part 413 (Act 451 of 1994, as amended))

Any of the following mollusks or a hybrid or genetically engineered variant thereof:

- Dreissena bugensis* quagga mussel
- Dreissena polymorpha* zebra mussel

PROHIBITED & RESTRICTED INSECTS

A. Prohibited Insect Species (Natural Resources and Environmental Protection Act Part 413 (Act 451 of 1994, as amended))

Any of the following insect species or a hybrid or genetically engineered variant thereof:

- Anoplophora glabripennis* Asian longhorned beetle
- Agrilus planipennis* emerald ash borer

PERMITS

The Natural Resources and Environmental Protection Act Part 413 (Act 451 of 1994, as amended) allows for permits for educational and research purposes for plant, mollusk and insect species listed as prohibited and restricted in Part 413 of the Act. Applications for Part 413 permits may be obtained from MDARD by contacting Mike Bryan, Export and Compliance Program Specialist at (517) 284-5648; email bryanm@michigan.gov.

PPQ 526 “Application to Move Live Plant Pests and Noxious Weeds” are administered by the U.S. Department of Agriculture for shipping insects, snails, mites and federally listed noxious weeds. As part of the approval process, USDA consults with MDARD regarding applications involving shipments into Michigan. MDARD has imposed a moratorium on PPQ 526 applications that involve the knapweed biological control agents *Cyphocleonus achates*, *Larinus minutus* and *Larinus obtusus* until further notice.

BOXWOOD BLIGHT CLEANLINESS PROGRAM

MDARD has adopted the “Boxwood Blight Compliance Agreement for Production Nurseries” to fulfill the requirements of the Boxwood Blight Cleanliness Program. The Program uses a systems approach to clean plant sourcing, early detection, and prevention of spread. The Program relies on six key components, including: pathogen exclusion, water management, sanitation, inspection, training and recordkeeping.

Boxwood, pachysandra and sweetbox produced by an enrolled nursery are eligible for special certification. Enrolled nurseries that meet the requirements will receive a certificate which states “The nursery has been inspected and found to be apparently free of Boxwood Blight, *Calonectria pseudonaviculata*. The responsible party has agreed to the stipulations of a

MI - 6 of 14

compliance agreement designed to prevent the introduction and minimize the risk of spreading Boxwood Blight.”

Michigan firms interested in participating in the program are encouraged to contact their local MDARD inspector or by contacting Mike Bryan, Export and Compliance Program Specialist at (517) 284-5648; email bryanm@michigan.gov.

QUARANTINES OR ADDITIONAL REQUIREMENTS

Full text versions of Michigan’s exterior state quarantines are available on the MDARD web site at <http://Michigan.gov/pestquarantines>

BALSAM WOOLLY ADELGID QUARANTINE

PESTS: Balsam woolly adelgid, *Adelges piceae* (Ratzeburg)

STATES REGULATED: The entire states of California, Idaho, Maine, New Hampshire, New York, North Carolina, Oregon, Tennessee, Vermont, Virginia, Washington and West Virginia. The entire Canadian provinces of British Columbia, New Brunswick, Newfoundland, Nova Scotia and Prince Edward Island; and, any other areas where balsam woolly adelgid is found to be established.

MATERIALS REGULATED: Balsam woolly adelgid, *Adelges piceae* (Ratzeburg) in any living form. Nursery stock; and, any of the following forest products with bark attached including: branches, boughs, logs, uncomposted or unshredded bark, lumber and firewood of all true firs (*Abies* spp.)

RESTRICTIONS: all regulated articles are prohibited entry into Michigan from any regulated area unless each lot or shipment is accompanied by an official certificate (i.e. State Phytosanitary Certificate or Certificate of Quarantine Compliance or equivalent certification document) evidencing compliance with one of the following criteria:

1. Originating from a pest-free area: Regulated articles are approved for entry into Michigan from a regulated area when: a) they originate from a county where balsam woolly adelgid is not known to occur based on official surveys conducted at least once every three years; and, b) balsam woolly adelgid is not known to occur in counties immediately adjacent to the county of origin based on official surveys conducted at least once every three years; and, c) they have not been held in a county known to be infested with balsam woolly adelgid; and, d) they have not been exposed to regulated articles from areas regulated for balsam woolly adelgid.
2. Production under an active pest management program: Seedlings and transplants of true fir (*Abies* spp.) no greater than 3 years old from the initial date of propagation may be certified for shipment into Michigan if produced under an active pest management program. An active pest management program must include the following components:

- a. Documented bi-weekly monitoring must be performed during the period of April 1 through November 1. If balsam woolly adelgid is detected during monitoring, a registered and effective insecticide treatment must be applied.
 - b. The grower must maintain insecticide treatment records.
 - c. The grower must have a documented training program for employees who work in the seedling and transplant production blocks.
 - d. Seedlings and transplants must undergo an insecticide treatment effective against BWA within 7 days of shipment
3. Heat treatment: Firewood with bark attached may be certified if the article has undergone heat treatment to a minimum core temperature of 56 degrees C. (132.8 degrees F.) for a minimum of 30 minutes.

Regulated articles originating from within a regulated area must be accompanied by a State Phytosanitary Certificate or Certificate of Quarantine Compliance or equivalent certification documents indicating the state and county of origin, the number and type of regulated articles, and containing one of the following declarations as applicable to the commodity:

- a. *Regulated articles originate from a county where balsam woolly adelgid is not known to occur based on official surveys conducted at least once every three years; Balsam woolly adelgid is not known to occur in counties immediately adjacent to the county of origin based on official surveys conducted at least once every three years; year of last surveys _____. The regulated articles have not been held in a county known to be infested with balsam woolly adelgid; and have not been held in proximity to regulated articles originating from areas where balsam woolly adelgid is known to occur.*
- b. *Seedlings/transplants were produced under an active pest management program to control balsam woolly adelgid.*
- c. *Firewood has undergone heat treatment to a minimum core temperature of 56 degrees Celsius (132.8 F.) for a minimum of 30 minutes.*

A copy of the certificate must be faxed to the Michigan Department of Agriculture and Rural Development, Pesticide and Plant Pest Management Division, Attention: Export and Compliance Program Specialist at (517) 335-4540. As an alternative, scanned copies may be sent via email to bryanm@michigan.gov

Regulated articles originating from states outside a regulated area must be accompanied by a State Phytosanitary Certificate or Certificate of Quarantine Compliance or equivalent certification document indicating the state and county of origin, number and type of regulated articles, and containing the following declaration:

MI - 8 of 14

"The regulated articles have not been held in the proximity of regulated articles originating from areas regulated for balsam woolly adelgid."

All regulated articles received from sources outside of Michigan are required to be held by the receiving firm until released by the Michigan Department of Agriculture and Rural Development, unless the firm is operating under a compliance agreement with the Department. Regulated articles from other states will be released only after it is determined that they meet quarantine requirements.

EXEMPTIONS: The following are exempt from the provisions of the quarantine:

1. Holiday greenery, such as cut Christmas trees, wreaths, boughs and grave blankets, from all true fir species if moved during the period of October 15 through January 1.
2. Douglas-fir, *Pseudotsuga* spp.
3. Composted or shredded bark and mulch of all true fir species.
4. Lumber, logs, firewood and other forest products of all true fir species with all bark completely removed.
5. Lumber, pallets and similar products that bear markings as being compliant with International Standards for Phytosanitary Measures No. 15, including American Lumber Standards Committee requirements for Kiln Dried (KD), Heat Treatment (HT), Dielectric Heat treatment (DH) or Kiln Dried Heat Treatment (KDHT) procedures.
6. Lumber and posts which have been treated with wood preservatives compounds i.e. pressure treated with chromated copper arsenate or similar treatments.
7. Seeds and cones of *Abies* spp.
8. The Director may allow, with written approval, the movement of regulated articles from regulated areas, into Michigan for research purposes.

BLACK STEM RUST REG 617

PESTS: Black stem rust, *Puccinia graminis*

STATES REGULATED: All

REGULATED: Berberis, Mahonia and Mahoberberis.

RESTRICTIONS: All rust-susceptible species and varieties are prohibited. USDA as well as Michigan Department of Agriculture and Rural Development must officially approve resistant varieties, prior to sale or transport.

BLUEBERRY SCORCH, SHOCK AND SHEEP PEN HILL VIRUS QUARANTINE

PESTS: Blueberry Scorch Virus (BIScV) carlavirus – West Coast strain, Blueberry Shock Virus (BIShV) ilarvirus and Sheep Pen Hill Disease (BIScV-NJ) carlavirus – East Coast strain

STATES REGULATED: All states, territories and districts in the United States and all countries.

MATERIALS REGULATED: Plants, buds, vegetative cuttings or any other propagative forms of *Vaccinium angustifolium* (wild lowbush blueberry), *Vaccinium corymbosum* (blueberry), *Vaccinium macrocarpon* (cranberry) and *Vaccinium membranaceum* (wild black huckleberry)

RESTRICTIONS:

1. All regulated articles shipped into Michigan must be demonstrated free of Blueberry Scorch, Blueberry Shock and Sheep Pen Hill Disease Viruses by meeting at least one of the following conditions:
 - a. They originate from an area free from any strain of Blueberry Scorch, Blueberry Shock or Sheep Pen Hill Disease viruses, as demonstrated by scientific evidence, and in which, where appropriate, this virus-free condition is being officially maintained.
 - b. They are certified under an official certification program in the state of origin that includes testing and inspection for blueberry viruses.
 - c. They are shown to be free of Blueberry Scorch, Blueberry Shock and Sheep Pen Hill Disease viruses based on an official laboratory test.
 - d. They were micropropagated and/or grown in an insect-proof greenhouse or screenhouse and originate from mother plants that have been tested and found free of Blueberry Scorch, Blueberry Shock and Sheep Pen Hill Disease viruses.
2. Certification programs, inspection methods and laboratory testing protocols must be conducted in a manner approved by the Director.
4. Regulated articles shipped into Michigan from a state other than the state of origin (i.e. reshipment of the regulated article) are required to have been certified in their state of origin as to meeting at least one of the conditions in Restrictions (1) a-d.; and, must have been maintained to prevent contamination and/or comingling with uncertified stock while in the shipping state.

CERTIFICATION REQUIREMENTS

1. All regulated articles shipped into Michigan must be accompanied by a State Phytosanitary Certificate or Certificate of Quarantine Compliance or equivalent certification document issued by an authorized state agricultural official.
2. Certificates must be issued by an authorized state agricultural official in the state where the shipper is located.

MI - 10 of 14

3. Reshipped regulated articles must be accompanied by a Certificate issued in the state where the reshipment occurred. For example, a shipment of plants which were produced under a certification program in Oregon, sent to a nursery in Ohio and subsequently reshipped from Ohio into Michigan must be accompanied by a Certificate from Ohio.

4. The Certificate must indicate the state of origin, the quantity, type and varietal name of the regulated articles, address of shipper, address of recipient and one or more of the Additional Declarations listed below corresponding to the method of certification.

ADDITIONAL DECLARATIONS

Certificates must contain at least one of the following statements:

- a. The Vaccinium plants originate from a Blueberry Scorch, Blueberry Shock and Sheep Pen Hill Disease Viruses Pest Free Area.
- b. The Vaccinium plants were certified under an official certification program in the state of origin that includes testing and inspection for blueberry viruses.
- c. The Vaccinium plants were shown to be free of Blueberry Scorch, Blueberry Shock and Sheep Pen Hill Disease viruses based on an official laboratory test.
- d. The Vaccinium plants were micropropagated and/or grown in an insect-proof greenhouse or screenhouse and originate from mother plants that have been tested and found free of Blueberry Scorch, Blueberry Shock and Sheep Pen Hill Disease viruses.

A full copy of the Quarantine is posted on the Michigan Department of Agriculture and Rural Development web site at <http://www.michigan.gov/pestquarantines>

CHESTNUT GALL WASP QUARANTINE

PESTS: Chestnut gall wasp, *Dryocosmus kuriphilus*

STATES REGULATED: AL, GA, KY, MD, NC, OH, PA, TN, VA and any other state where chestnut gall wasp may become established.

MATERIALS REGULATED: Living plants and scionwood of all *Castanea* species including hybrids.

RESTRICTIONS: All regulated articles originating from regulated areas are prohibited entry into the State of Michigan, unless all of the following requirements are met:

- 1) The regulated articles originate from a pest free place of production where chestnut gall wasp is not known to occur; as determined by:

- a) Inspection of all *Castanea* spp. plants at the place of production annually by an agricultural official during the period of time when chestnut gall wasp symptoms would be readily seen (i.e. when leaves are fully developed); and,
 - b) Inspection of all *Castanea* spp. plants in a buffer zone extending at least 1,000 meters from the place of production in all directions.
 - c) All *Castanea* spp. plants in the place of production and the buffer zone must have undergone an annual inspection during the previous two growing seasons at time of full leaf development; and, must have been found free of symptoms of chestnut gall wasp infestation during the inspections.
- 2) Regulated articles originating from the regulated area must be accompanied by a state phytosanitary certificate or certificate of quarantine compliance or equivalent official certification indicating the number and type of regulated articles, and containing the declaration that the regulated articles originate from a pest free place of production where chestnut gall wasp is not known to occur.

A copy of the certificate must be faxed to the Michigan Department of Agriculture and Rural Development, Pesticide and Plant Pest Management Division, Attention: Export and Compliance Specialist at (517) 284-5648. As an alternative, scanned copies may be sent via email to bryanm@michigan.gov. A copy shall accompany the regulated articles to their final destination. Persons in Michigan receiving regulated articles from the regulated area may not sell or further distribute the regulated articles unless a written release is issued to the consignee by the Michigan Department of Agriculture and Rural Development.

3) Regulated articles originating from states outside a regulated area must be accompanied by a standard nursery inspection certificate, state phytosanitary certificate or certificate of quarantine compliance indicating the state and county of origin and quantity of regulated articles.

EMERALD ASH BORER QUARANTINE

PEST: Emerald Ash Borer, *Agrilus planipennis*

STATES FEDERALLY REGULATED IN WHOLE: CT, IA, IL, IN, KY, MA, MO, NJ, OH, PA, VA and WV. STATES FEDERALLY REGULATED IN PART: AR, CO, GA, KS, MD, MI, MN, NC, NH, NY, TN and WI.

Michigan's EAB Interior Quarantine consists of all counties in the Lower Peninsula plus all of Alger, Baraga, Chippewa, Delta, Dickinson, Houghton, Keweenaw, Luce, Mackinac, Marquette, Menominee and Schoolcraft Counties. See www.michigan.gov/eab for up-to-date EAB quarantine information.

REGULATED ARTICLES:

The emerald ash borer in any living stage of development. Entire ash (*Fraxinus* spp.) trees; ash limbs and branches; ash stumps; ash logs with bark; ash lumber with bark.

MI - 12 of 14

Non-coniferous (hardwood) wood chips and non-coniferous (hardwood) bark chips larger than 1 inch in two dimensions; firewood of any non-coniferous (hardwood) species; and, any article, product, or means of conveyance when it is determined by the Michigan Department of Agriculture and Rural Development to present the risk of spread of the emerald ash borer.

RESTRICTIONS: Within Michigan the movement of regulated articles out of quarantine areas is prohibited except with a compliance agreement. The sale and/or movement of all ash nursery stock within, out of or into Michigan is prohibited under all conditions. Ash wood material, including ash lumber, used in the State of Michigan for the manufacture of pallets and wood crating must be bark free.

HEMLOCK WOOLLY ADELGID QUARANTINE

PESTS: Hemlock woolly adelgid, *Adelges tsugae*

STATES REGULATED: AK, CA, CT, DE, GA, KY, MA, MD, ME, NC, NH, NJ, NY, OH, OR, PA, RI, SC, TN, VA, WA, WV and any other areas where hemlock woolly adelgid is found to be established.

MATERIALS REGULATED: *Tsuga* spp. (hemlock) and *Picea polita* (tiger-tail spruce) nursery stock and forest products of those species with bark attached, including branches, boughs, uncomposted or unshredded bark; logs; lumber and firewood.

RESTRICTIONS: Official surveys are a condition of entry for regulated articles originating from non-infested counties in regulated states. Surrounding counties as well as the county of origin must have been found free of hemlock woolly adelgid based on an official survey conducted within the past three years. Regulated articles from infested counties are prohibited entry into Michigan.

Regulated articles shipped from non-infested counties in both regulated and non-regulated states is only allowed under the following conditions: (1) A state agriculture inspector must have inspected the regulated article and found it free of pests; (2) The shipment must have been protected during any transiting of infested areas; (3) The trees must not have been co-mingled with regulated articles from an infested area; (4) A state phytosanitary certificate or certificate of quarantine compliance must accompany the shipment.

Additional declarations are required on the certificate as described in the HWA Quarantine posted on the Michigan Department of Agriculture and Rural Development web site at <http://www.michigan.gov/pestquarantines>
A copy of the certificate must be faxed to the Michigan Department of Agriculture and Rural Development, Pesticide and Plant Pest Management Division, Attention: Export and Compliance Program Specialist at (517) 335-4540. As an alternative, scanned copies may be sent via email to bryanm@michigan.gov

All regulated articles received from out-of-state are required to be held by the receiving firm until released by the Michigan Department of Agriculture and Rural Development, unless the firm is operating under a compliance agreement with the Department. Imported regulated articles from other states will be released only after it is determined that they meet quarantine requirements.

THOUSAND CANKERS DISEASE OF WALNUT QUARANTINE

PESTS: The walnut twig beetle, *Pityophthorus juglandis* and the fungal pathogen *Geosmithia morbida sp. nov.*

STATES REGULATED: AZ, CA, CO, ID, IN, MD, NC, NV, NM, OH, OR, PA, TN, UT, VA, WA and any other areas where Thousand Cankers Disease of Walnut may become established.

MATERIALS REGULATED: The walnut twig beetle *Pityophthorus juglandis*, in any living stage of development; the fungal pathogen *Geosmithia morbida sp. nov.*; firewood of any non-coniferous (hardwood) species; and, all plants and plant parts of the genus *Juglans* including but not limited to nursery stock, budwood, scionwood, green lumber, logs, stumps, roots, branches, and chips. Specific exceptions are: nuts, nut meats, hulls, processed lumber (100% bark-free, kiln-dried with squared edges), and finished wood products without bark, including walnut furniture, instruments and gun stocks.

RESTRICTIONS: All regulated articles originating from regulated states are prohibited entry into the State of Michigan. Regulated articles originating from a state outside a regulated area but transiting through a regulated area will be considered to be regulated articles. Regulated articles to be used for research purposes, at the discretion of the Director, may move under a compliance agreement.

Regulated articles originating from states outside a regulated area must be accompanied by documents indicating the state of origin.

WHITE PINE BLISTER RUST ACT 313

PESTS: White pine blister rust fungus, *Cronartium ribicola*

STATES REGULATED: All

MATERIALS REGULATED: Roots, cuttings or plants of currants and gooseberries, *Ribes* spp.

RESTRICTIONS: Sale of black currant, *Ribes nigrum*, roots, cuttings, or plants is prohibited statewide. Sales of other currant species and gooseberries are also regulated for counties in the white pine blister rust control area – see map on the MDARD web site at www.michigan.gov/pestquarantines. Rust-resistant *Ribes* varieties may be obtained under special permit if approved by Michigan Department of Agriculture and Rural

MI - 14 of 14

Development. Applications for *Ribes* permits may be obtained from MDARD by contacting Mike Bryan, Export and Compliance Program Specialist at (517) 284-5648; email bryanm@michigan.gov .

"X" DISEASE OF PEACH REGULATION 612

PESTS: "X" Disease of Peach (Yellow Red Virosis)

STATES REGULATED: All

MATERIALS REGULATED: Chokecherry (*Prunus virginiana*), including ornamental cultivars, such as "Schubert" and "Canada Red"

RESTRICTIONS: Regulated materials are prohibited from being grown or sold within 1,000 feet of peach or cherry nursery stock; or within 500 feet of peach or cherry orchards
